

DIGITAL PRODUCTS FOR A BETTER LIFE

<https://www.bart.sk/en>

Bart is a story of **A BETTER LIFE**

We live in Slovakia, in the beautiful city of Kosice, where the IT services are on a high level. We are a part of the IT community with more than 15k specialists.

We create digital products in the field of health, sports and ecommerce, that improve our lives. For more than 24 years.

With more than 50 full-stack developers, we always bring our clients the latest proven technologies and processes. Our clients include companies mainly from the European Union.

Our biggest success is that we have long-term and stable projects. Instead of one-off high-yield projects, we prefer long-term cooperation and partnership.

We do what we enjoy. And we live good lives ourselves.

OUR FOCUS

HEALTH

We create web applications to improve lives and care for our health.

SPORT

We develop digital products for sports organisations to manage their activities.

ECOMMERCE

We focus on developing smart ecommerce solutions that can predict visitor behavior.

We provide

SERVICES

BRIGHT & FUNCTIONAL DESIGN

Designing digital products according to the latest trends is the solution to not just increase sales, but to make business more efficient.

AGILE SOFTWARE DEVELOPMENT

Innovate digital products, improve existing technologies or even rebuild everything from scratch to make your idea successful.

ECOMMERCE IMPLEMENTATION

The implementation of ecommerce is our most significant domain knowledge. We know the technologies, platforms and best practices for being successful in B2B and B2C.

CONTINUOUS SUPPORT

Thanks to our continuous care and extra improvements, that are provided even after the project is completed, we help our clients avoid technological debt.

In the field of health, sports and ecommerce.
